

NORTHERN INDIA TEXTILE RESEARCH ASSOCIATION

MICROBIOLOGY LAB

Testing Facility at NITRA for Antimicrobial Testing			
S. No.	Test	Test method	Charges (Rs.)*
1	Antimicrobial Finishes on Textile materials: Assessment -Staphylococcus aureus ATCC No 6538 -Klebsiella pneumonia ATCC No 4352	AATCC 100	2000.00
2	Antimicrobial Activity Assessment of Textile Materials: Parallel Streak Method	AATCC 147	1800.00
3	Antimicrobial Activity Assessment of new carpet i) Qualitative assessment ii) Quantitative assessment	AATCC 174	1800.00 2000.00
4	Antibacterial activity assessment of textile materials: Agar plate method	AATCC 90	1800.00
5	Determination of antibacterial activity of textile product	ISO 20743	5500.00
6	Determination of antibacterial activity of textile product- Agar diffusion plate test	ISO 20645	1800.00
7	Antimicrobial activity assessment of Textiles against Fungi	AATCC 30, ASTM D 4576, BS EN 14119	2000.00
8	To evaluate the antibacterial efficacy of antibacterial finished textile product	JIS L 1902	2500.00
9	To determine the resistance to dry bacterial penetration	IS 16548, ISO 22612	12500.00

*18% GST extra
