

## NITRA Scientists sensitize youngsters on building career in Textile industry

A team of NITRA scientists recently visited ASPG College, Mawana and addressed a group of young students. During the program, the team apprised the students about Indian textile & apparel industry and discussed the various opportunities that are available with taking up this industry as a career option. While facilitating the students, they informed about various job oriented short term training programs on textiles and apparel conducted by NITRA, Ghaziabad under various central and state govt. schemes. The team also informed the youngsters about some of the programs under UPSDM that is conducted absolutely free of cost.
